

Natalie Woodmansee

1087 Belvedere Lane, San Jose CA, 95129

Phone: (408) 332-0709 Email: nataliegwoodmansee@gmail.com

Statement:

A responsible, motivated, and enthusiastic graduate seeking an opportunity to contribute to team success through hard work, knowledge, and professional skills developed through time spent in research labs, workshops, and classes. I have an ample amount of drive to work within a team to understand different processes and patterns found in aquatic environments. For a couple years, I worked in an ecology research lab dealing with samples and data analysis. I, as well, put together a written proposal on the effects of ocean acidification on coral reefs hoping to use that and gauge a new outlook on conservation methods. I am currently enrolled as a Graduate Student at Northeastern University for Environmental Science and Policy hoping to expand my horizons and delve into both marine and environmental science professions.

Skills/Experience:

NAUI Scuba Diving Certified

First Aid/ CPR Instruction

Data analysis and management experience using Excel

R, SPSS, and GIS software experience

Research design experience: Ocean acidification, marine ecology, plant ecology

Coaching and mentoring experience of individuals ranging from three years of age to 40+

Equipment Management: chlorine, food stock, pH, and acidic chemicals

Plant ecology research lab handling experience

Conservation biology management plan project: budget limitations, land and species conservation

Logging/computer experience with ImageJ

Biological oceanography data analysis experience
